It is a great satisfaction to realize that, in spite of adverse conditions prevailing, the past season has been our most successful year. The number of our customers has greatly increased with very little advertising effort on our part, which shows that our stock advertises itself better than we can do it ourselves.

We are, as ever, grateful to our customers for having a good word to say about our stock and we feel sure that we are prepared to give you complete satisfaction, better values and to serve you to the best of our ability.

You will notice that prices have been reduced on many varieties and that we have added a good many new ones to our list.

Making our home surroundings look cheerful and pleasing to the eye—which can be done this year at a small expense—will help us to endure better the trying conditions of the present day. The result will more than compensate the expenditures involved.

Visitors are always welcome; we will be delighted to show you around, and to have you acquainted with every phase of our work.

Five per cent discount will be allowed on orders amounting to \$10.00.

For our guarantee, see the last page.

Prices: 25c to 75c per dozen, according to variety; we are offering a mixture of the above, your choice, for 35c per dozen.

Everyone should take the opportunity of securing some bulbs of this magnificent cut flower at these low prices. They will be welcome in your garden, too, as they will bloom at the time when most of the perennials are taking their rest and your borders begin to look bare.

Pansies

Our pansies are different from what you usually get in basket-trade. They are transplanted to the field after being started and grown in frames. Their heavy root system assures persistence in blooming and hardiness. Our customers report that an unusually large number of them survive the winter. We have added to our usual selection of varieties the new Swiss Giants, a truly wonderful pansy. All colors.

Price: 30c per dozen.
